

Good Shepherd Catholic Elementary School demonstrates a strong emphasis on following Gospel values, including daily prayer, monthly masses, strong parental commitment and community celebrations. At Good Shepherd, we provide each student with an education that will serve as a solid base for achieving academic excellence. We encourage our students to be faithful and diligent problem solvers who do their best in all academic areas, are respectful of themselves and others, of the discipline code and of the environment. We use proactive and restorative discipline practices that ensure all students are safe and respected. At Good Shepherd the students have a wide range of activities that they can participate in, including sports, the arts and leadership opportunities. All staff members are involved in the creation and delivery of our Catholic school improvement plan. I encourage all students to let God's light shine through them and share their talents and ideas with others.
