

SEA Equipment – Home/School Policy

SEA equipment has been purchased for a student because it is 'essential' for learning.
Therefore:

- Equipment acquired through Ministry SEA funding must be at school and available for student use throughout the day;
- Students may transport portable equipment (ie. laptop) to and from school to home;
- The SEA Computer Use Agreement Form must be signed by both the school and parents/student to allow the equipment to travel from school to home;
- **Please note: if a laptop is damaged, parents should NOT have it fixed. Please bring it to the immediate attention of Ms. Bridget Girard (SERT – Resource Dept.) and a work order will be submitted to have it repaired.**
